About the property As you can see from the photographs, this is NOT your average townhouse! For a start, most townhouses with garages have the garage below street level, with a steep ramp into an underground parking area, whereas this property has the integral garage with an entrance at street level, and the parking area at street level. Plus of course the parking area is enormous, with space for multiple vehicles, a bathroom with toilet and shower, plus an additional large room to the rear of the garage which could be used as a commercial premise, or used as a guest apartment. This room has windows and patio doors leading to a large, tiled patio area to the rear. An elegant Spanish-tiled external stairway leads from this patio area to the barbecue area on the floor above. The first floor comprises a very spacious lounge with balcony, bathroom with shower, a kitchen and dining area, internal patio, pantry, utility (laundry) room and patio door access to a large barbecue area, with a stairway leading down to the lower patio area. The lounge faces east-wards to enjoy the sunrise, and would make a great entertaining room. Together with the enormous kitchen-dining and outside patio/barbecue area, this really would be a great place to entertain as many guests as you decide! The second floor comprises 3 double bedrooms each with an en-suite bathroom. The master bedroom is incredible, and faces east to the front of the property, so ideal to enjoy the sun rise as you awake! As you enter the master bedroom there is a separate wardrobe and dressing area which leads to both the sleeping area and the en-suite bathroom. Ceiling-mounted spotlights add a touch of intimacy, in this very special master bedroom. This master bedroom has a small balcony, and the views from this room towards the church square are delightful. The other 2 bedrooms on this floor are also very spacious, with en-suite bathrooms and built-in wardrobes. The rear bedroom has views towards the new "concha" auditorium recently built to accommodate occasional
